## Electric Vehicles International (EVI)

Our October meeting was at EVI's world headquarters in Stockton. Spencer Bole ([sbole@sjgov.org](mailto:sbole@sjgov.org)) with the San Joaquin Sherriff's Dept. offered the Jail Industries auto body repair and upholstery services to government entities at a discount to normal body shop rates. Bob Summersett ([summerbike@yahoo.com](mailto:summerbike@yahoo.com)) from Clean Cities gave a presentation on a free class for First Responders regarding alternative fuel vehicles.

Paul Goelz from EVI gave a presentation on their new class 6 all electric truck and their Neighborhood Electric Vehicle (NEV). These vehicles use lithium ion batteries and cutting edge controllers to provide a durable electric vehicle option to your fleet. Everyone that attended had an opportunity to test drive the Freightliner class 6 truck as well as the NEV. Both of these vehicles were very impressive!

Thanks to Paul and EVI for the opportunity to learn more about these vehicles. You can reach them at 209.939.0405 or [www.evi-usa.com](http://www.evi-usa.com)
